

SECRET

9 April 1983

Bill,

Things to do with Bill Clark

-- Goldwater is prepared to introduce FOIA legislation on Tuesday, 12 April. Want to make sure that this is cleared with Judge Clark. Goldwater will probably ask by letter for reaction from the President. It should be noted that the Community is not included in the legislation but solely directed at CIA. We could touch base on Monday with the White House to reaffirm Baker's earlier commitment as well as tip off other Community members that only CIA included for moment.

-- Still must push Clark to have Stockman designate State Department as national security agency. Clark has written Stockman but we believe letter has been buried on the route.

-- Spear carriers around JCS trying to get PDB for Vessey. May try to finagle through Poindexter. Suggest we alert Clark to discourage.

-- It looks like deGraffenreid and Codevilla are attempting to grease skids to have SSCI encourage a Presidential Commission on CI with eventual purpose of establishing CI czar. We should kill it before the brown shirts arrive.

25X1

-- You have letter from Clark passing on D'Amato's and McDonald's letters re the Soviet/Bulgarian connection. Hopefully this is overtaken by the events of our reporting that Bulgarians and Soviets not involved. You will probably hear more on it.

John
